

The Peniel Family Services division is an out-patient program. This special component of Peniel provides clinical therapy and counseling to children, teens, and families.

Individual as well as family sessions are conducted by trained clinicians and overseen by a Licensed Social Worker with years of experience and success.

"The ultimate goal of the Peniel Family Services Division is to provide the tools which will strengthen families by assisting children and youth in time of family crisis with qualified and effective care."

The Learning Center has quickly become a favorite. With six spacious classrooms, a full library, computer lab, and group therapy room located at the center of the facility, we are more equipped to address academic needs.

Every area of our facility has been specifically planned to provide the best treatment experience for every client we serve.

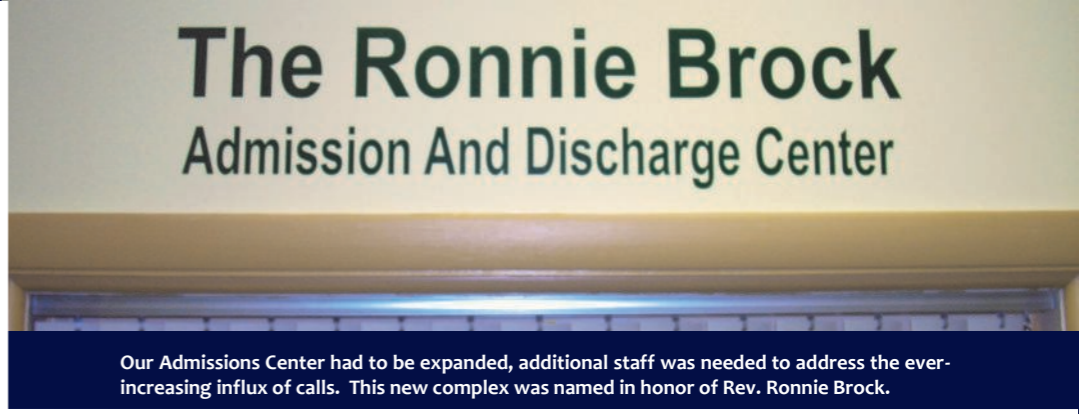

This Gymnasium has been named in honor of staff member Larry Scott.

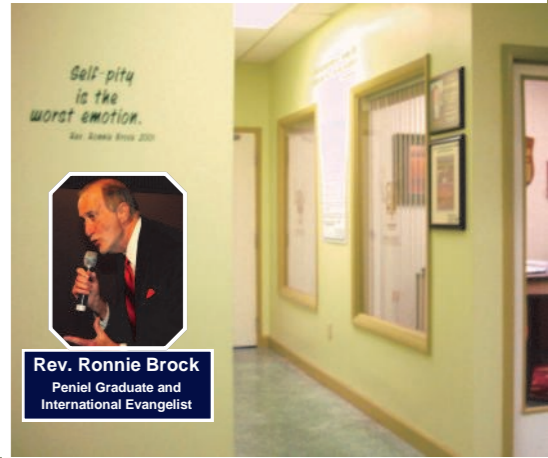

With the completion of The Larry Scott Gymnasium and our new fitness center, our residents have a spacious and safe place to enjoy recreational activities all year.

Our dedicated medical staff provide the best care possible in our clean and modern facility.

Our Admissions Center had to be expanded, additional staff was needed to address the ever-increasing influx of calls. This new complex was named in honor of Rev. Ronnie Brock.
